Throw Me Away

James Chance & The Contortions

Flesh wound, flesh wound
With medication, it will fade
Should I assume
That someone hears me when I prayLove full of hate
Don't you love how I pray?Don't let them throw me away, ah
Kick me and I'll be okay, ah
Skipping a beat but it plays, ah
Don't let them throw me away, ah
Don't let them throw me awayScrewed up, used up
Crumble lying on the floor
Fucked up, shut up
All you did back then was scoreI'm feeling weak
Missing parts, incompleteDon't let them throw me away, ah
Kick me and I'll be okay, ah
Skipping a beat but it plays, ah
Don't let them throw me away, ah
Don't let them throw me awayHold me up into the light
Fix the cracks and fix them right
Keep the pieces in the drawer
Keep them there for ever moreWake a million thoughts someday
Recycle this shit in someway
And all that I have to say
Don't let them throw me awayDon't let them throw me away, ah
Kick me and I'll be okay, ah
Skipping a beat but it plays, ah
Don't let them throw me away, ah
Don't let them throw me away
