Rainy Day Woman

Mark Collie

When I was younger mama used to say
Save you something for a rainy day
When it comes to love mama sure was rightWhen the wind's howlin' at my door
I let the lightnin' flash, I let the thunder roar
I've got a rainy day woman to get me through a lonely nightI've got a woman who can understand
To complications of a lonely man
When everything goes wrong, everything's alright
She gives me something that's as good as goldNow it can't be bought and it can't be sold
I've got a rainy day woman to get me through a lonely night
Rainy days, rainy nights, hold me closer, hold me tight
When the wind's howlin'Rainy days, rainy nights, hold me closer, hold me tight
When the wind's howlin'I've got a rainy day woman
To get me through a lonely night
I've got a rainy day woman
To get me through a lonely night
