Beauty

The Shivers

I live off love
I feed off love
I breathe off love
I think of love
I drink of love
I sink in love
And in the middle of the night i need my love
I need to grieve and need to need and be in love
My love is gonna come to me
Tonight
I give my love and all my love to you, my love
I feast on love, a beast for love, release my love
You're scared and unprepared for love, don't care my love
Cause youre the only woman i've been dreaming of
I swear to god i'm loving you for that
I swear to god i'm making you my wife
And if you ever leave me
I never will be sore
I'll love you 'til you're lonely
Then i'll love you some more just before
Ohh.
Beauty beauty beauty, there's nobody near me,
There never was
Beauty beauty beauty, there's nobody near me,
There never was
