All I Wanna Do

Jamie Lidell

If I could swallow the sky
And the mountains too, I'd do it
So there'd be nothing to fall on you'Cause in a world full of wonders
To let it openly wonder
When there's still little wonder left in youAll I wanna do, oh, oh, is show you
How easy it could be, oh
For you to paint back the colors
The green in your tree
Before it all fades awayThey say there's no roads where we're going
Let's prove them wrong
If I could I would level the land
So we could keep moving on'Cause in a world full of magic
It's never ever tragic
When there's still a little magic left in youAll I wanna do, oh, oh, is show you
How easy it could be, oh
For you to paint back the colors
The green in your tree
Before it all fades awayWhen it's cold outside
And your sun's all I'll be
You'll be sleeping too
And you dried up all your dreamsDon't you know that
There's really no such thing
As an endless night?
So let's make a little magic
Just to put things right, ohAll I wanna do, oh, oh, is show you
How easy it could be, yeah
All I wanna do, oh, oh, is show you
How easy it could be, yeah, yeah
For you to paint back the colors
The green in your tree
Before it all fades awayAll I wanna do
All I really wanna do
