

Strawberry Wine

My Bloody Valentine

Misty morning in the springtime
Close your eyes, crystal eyes
On the darkside let the light shine
Could you stay with me tonight
These lips will find strawberry wine I was looking out your window
Broken glass underneath my feet
Cherry apples, long grass meadows
(searching) i, for dreams in sleep
These lips will find strawberry wine Misty morning in the springtime
Broken glass underneath your feet
On the darkside let the light shine
Think of me, don't let me keep
These lips will find strawberry wine
