

This Ain't Forever

Kolton Moore & the Clever Few

I left yesterday headed west
I kissed you goodbye
You wished me the best
I told you I love you still
But you don't know why
Yeah, I always leave in the nick of time

Said I've got to go
But I'll be back real soon
I'll be coming home with the August moon
Tell your mom and them I love them too
Ooooh
I've dreamed about this I've dreamed about you

When darkness turns to day
My memories fade away

Away

You need to know that this ain't forever
I might be gone tonight but I won't be gone forever
We might be apart for now but soon we'll be together
You need to know oh that this ain't forever

This highways got my heart tonight
You can have it back
But it's going to take a fight
Hotel rooms and long midnight drives
This road it brings it back to life?

When darkness turns to day
My memories fade away

You need to know that this ain't forever
I might be gone tonight but I won't be gone forever
We might be apart for now but soon we'll be together
You need to know oh that this ain't forever

When darkness turns to day

My memories fade away

Away

You need to know that this ainâ€™t forever
I might be gone tonight but I wonâ€™t be gone forever
We might be apart for now but soon weâ€™ll be together
You need to know oh that this ainâ€™t forever

I left yesterday headed west
