

Switch

Sugababes

He's nothin' special, don't need his dough
Settlin' down what is that a joke
You're feelin' his best friend
Your ex bores you, 'cause he started to ignore you
He starts his speech tell him not to preach
Always talkin' out of his ass, what's the point of that
He's not on your level like the new man
The fly man, the man who really understands
Remember a good way
To get out of an old thing
Is to jump into a new thing and
Switch, if you don't deliver, you just ditch
Grab another lover, scratch your itch
From dusk 'til dawnin'
Until that new guy has you yawnin'
Switch, if he don't please you, you just ditch
Find someone to tease you, makes you itch
Freaks you 'til the mornin'
Until this new guy has you yawnin'
Same old thing, the TV, the video
He's got to know conversations growin' old
You've heard those jokes, they're cold
Could he think the kiss on the text means a pizza
Then action attraction, he's got it all wrong
Remember a good way
To get out of an old thing
Is to jump into a new thing and
Switch, if you don't deliver, you just ditch
Grab another lover, scratch your itch
From dusk 'til dawnin'
Until that new guy has you yawnin'
Switch, if he don't please you, you just ditch
Find someone to tease you, makes you itch
Freaks you 'til the mornin'
Until this new guy has you yawnin'
Hangin' around on borrowed time
One strike out, you ain't mine
So just get your style in check
I move one ex to the next
Everythin' he does beats you
So I'm jumpin' another queue
Please just get your style in check
I move one ex to the next
Switch, if you don't deliver, you just ditch
Grab another lover, scratch your itch
From dusk 'til dawnin'
Until that new guy has you yawnin'
Switch, if he don't please you, you just ditch
Find someone to tease you, makes you itch
Freaks you 'til the mornin'
Until this new guy has you yawnin'
Switch, if you don't deliver, you just ditch

Grab another lover, scratch your itch
From dusk 'til dawnin'
Until that new guy has you yawnin'Switch, if he don't please you, you just ditch
Find someone to tease you, makes you itch
Freaks you 'til the mornin'
Until this new guy has you yawnin'Oh, yeah
Switch, if you don't deliver, you just ditch
Grab another lover, scratch your itch
From dusk 'til dawnin'
Until that new guy has you yawnin'Switch, if he don't please you, you just ditch
Find someone to tease you, makes you itch
Freaks you 'til the mornin'
Until this new guy has you yawnin', switch
