

# Swing on Low

Willis Earl Beal

Hmmmm  
Heaven blessed me, gave their care  
Look around nobody is there  
There's no more, less than before  
Times passes through an open door  
Realize that there is no floor  
Calculators broken so there is no score  
Mi amore manifest adore  
Marks on the board from your late phone call  
Jack of hearts don't cut the queen  
Bones vacant there never was no king  
Earls coming with the switching of the scene  
Sprout a stock, only got one bean  
Enchanted, got a bottomless head  
Rode out to a valley out there  
Ain't and drank like it never been fed  
There's a new man dead from the flesh that bled  
All was great, till he found his fate  
Parallel power at the end of the hour  
Times dead so there is no late  
Just fake dualites that exceed to cower  
Showered shoes so he lifts his fist  
Caught a rare fish number one on his list  
Then let it go, he had the bliss  
Nope insist the hits, he received the jist  
Mmmm hmmmmm

Swing on low  
In the flow for the souls who don't know  
Down the hole x2  
Swing on low

Big punk small time, still in my prime  
In the coopedodaloop of a satisfied mind  
I'm the bunny rock hopper the lyrics all down  
Imma dance in a trance  
till they put me in the pound  
I ain't satisfied unless I'm acting a fool  
I'm a caffinated chap, microphone is my tool

I'm shiver fit pissed, with a shovel in my fist  
Got my graveyard boots as I hide in the mist  
I'm a fiend full of feeling, got a bone like a rocket  
And a motive so loko no bozos can stop it  
Frogman hop it if the wall I can't knock it  
Then the clatter chitter chatter  
Don't matter if I drop it  
One hand in my pocket, the other on the bar  
I'm seating back on the seat  
In the night, I'm going far  
Cocoa butter on my hands  
Pulpary on my pants  
I'm sitting still in the sun  
Because I know in advance

Swing on low in the flow  
For the souls who don't know down low  
Swing on low x3  
Swing on low in the flow  
For the souls who don't know down low  
Swing on low, swing on loooooooooowwwww  
Swing on loooooooooowwwwwww
