

# Bells Are Ringing

## Darling Parade

Sing out the bells are ringing  
Follow your heart that's beating  
Inside she's crying  
I cant stop denying

I've got this feeling  
Running through my veins  
I cant stop this feeling  
I'm starting to change

Yeah  
Oh we're just fighting for our lives

I'm losing it tonight  
It's a never ending fight  
I can't shake it off of my mind  
I know I've got to stay around this time  
And I'm dying just to find  
That it is part of me that's trying to survive

What I know  
Is that I'm  
Getting so confused  
I need you right beside me  
All the time  
I'm trying to reach you  
Caught up in concentrating  
I want this to be over  
We're starting so frustrated

Oh  
we're just fighting for our lives

I'm losing it tonight  
It's a never ending fight  
I can't shake it off of my mind  
I know I've got to stay around this time  
And I'm dying just to find  
That it is part of me that's trying to survive

We are so alone in this place  
And you can't make it on your own  
I can't deny it  
You can't deny it

I'm losing it tonight  
It's a never ending fight  
I can't shake it off of my mind  
I know I've got to stay around this time  
And I'm dying just to find  
That it is part of me that's trying to survive  
Sing out the bells are ringing  
Follow your heart that's beating  
Sing out the bells are ringing  
Follow your heart that's beating  
Inside she crying  
Cant stop denying  
Inside shes crying  
Follow your heart that's beating
