

# Kitty

## Racey

Out in the wide world Kitty, pretty Kitty  
Out in the wide world Kitty, far across the sea  
    My Kitty sailed away from me  
        To strange and distant lands  
    And when I asked a goodbye kiss  
        She said, "Oh no, shake hands"  
    Out in the wide world Kitty, pretty Kitty  
Out in the wide world Kitty, far across the sea  
    When Kitty left she said she'd write  
        He promised her the same  
    But his address somehow got lost  
        And she forgot his name  
    Out in the wide world Kitty, pretty Kitty  
Out in the wide world Kitty, far across the sea
