

# Ghosts In My Guitar

Billy Idol

Tommy cashed it in down on Avenue A  
Didn't have a reason  
Didn't have much more to say Well, last time I saw him he was  
Looking green  
Y'know, some people never make it  
Out of this scene Like, Rudy took a hit around Chapter 9  
Adios my friend, we had one hell of a time When I think of you  
There's a voice in my head  
That says without fire  
We're better off dead  
And I thank you all I'll never forget  
The ghosts in my guitar Terry told me that she loved me true  
Next time I looked around  
She'd run off with you  
Well, I was out there playing  
'round the world  
No time to think about another lost girl When I think of you  
There's a voice in my head  
That says without fire  
We're better off dead  
And I thank you all I'll never forget  
The ghosts in my guitar  
Ghosts in my guitar Billy is my name  
And you know me well  
I've played every game and yes,  
I walked into hell  
And yes, down on my luck  
I played the fool  
Had you to live for  
Now I'm back here for good When I think of you  
There's a voice in my head  
That says without fire  
We're better off dead  
And I thank you all Yes, I'll never forget  
The ghosts in my guitar  
Ghosts in my guitar The ghosts in my guitar  
Will only take me so far  
The ghosts in my guitar

'cause I've got to walk on
