

I Get High On You

Sly & The Family Stone

When push comes to a shovin'
I'd rather make some lovin'
And if I'm being sneaky
For something too, too freaky I get high on you
I get high on you
What'd you say?
High on you
I get high on you Naturally, my temperature is risin'
I hope you're realizin'
To know you is my pleasure
'Cause you're my only treasure So I get high on you
I get high on you
I get high on you
High on you
Singin' high on you Even when I'm sleepin'
Your body seems to creepin'
And surely will wake me
But my [Incomprehensible] will take me I get high on you
Get high on you
You know I enjoy it
I get high on you (I get little)
I get high on you
I get high on you
High on you
High on you, my baby
I get high
