

# With the World At My Feet

## Big Deal

With the world at my feet  
And the stars in my reach  
But you won't be with me  
You won't be with me I was waiting for you  
Was waiting  
I was sleeping  
You've been changing You don't have to say it's done  
I know, I know  
You don't have to say it's done  
I know, I know With the world at my feet  
And the stars in my reach  
But you won't be with me  
You won't be with me All that I need  
But all that I need  
Won't be with me  
Won't be with me Tired of giving, of forgiving  
Some mistakes are not worth saving You don't have to say it's done  
I know, I know  
You don't have to say it's done  
I know, I know You don't have to say it's done  
I know, I know  
(x6)With the world at my feet  
And the stars in my reach  
But you won't be with me  
You won't be with me
