Black Sheep Boy

Okkervil River

Here I am back home again I'm here to rest All they ask is where I've been Knowing I've been westI'm the family's unowned boy Golden curls of envied hair Pretty girls with faces fair See the shine in the black sheep boyIf you love me let me live in peace Please understand That the black sheep can wear the golden fleece And hold the winning handI'm the family's unowned boy Golden curls of envied hair Pretty girls with faces fair See the shine in the black sheep boyI'm the family's unowned boy Golden curls of envied hair Pretty girls with faces fair See the shine in the black sheep boy
