

# For the Win

## We Are the In Crowd

I've got a way with words  
and it's the cause of all my problems  
I've got my mind set  
and that's the way it is  
I never thought it could get this bad  
when I had you in my pocket everything was just fine and... You've got a big mouth  
and the streets are talking  
about the way you walk around like you own the place  
You've got a big mouth  
and you shoulda shut it  
yeah, you shoulda shut it in the first place just, take another look at the risks we took  
and all the things i said  
what were they really worthy you're all talk, you can't act  
like you're calling the shots  
I'm the only thing that you've got We don't have anywhere to go but up  
so sit back and watch us fall  
take it back, don't react  
don't ever forget  
we'll make it by I can't take another second of this goddamn town  
it's getting harder to sing...  
dodo do do do dodo  
These melodies of settling are starting to sting and everybody's talking like they know it all  
conducting social symphonies  
you're all talk  
you can't act like you're calling the shots  
I'm the only thing left you got We don't have anywhere to go but up  
so sit back and watch us fall  
take it back, don't react  
don't ever forget  
we'll make it by We don't have anywhere to go but up  
so sit back and watch us fall  
take it back, don't react  
don't ever forget  
we'll make it by You've got a big mouth  
and the streets are talking  
about the way you walk around like you own the place  
You've got a big mouth  
and you shoulda shut it  
yeah, you shoulda shut it in the first place everybody's got me looking in the wrong direction

(all eyes on you, they're looking out for me) We don't have anywhere to go but up  
so sit back and watch us fall  
take it back, don't react  
don't ever forget  
we'll make it by We don't have anywhere to go but up  
so sit back and watch us fall  
take it back, don't react  
don't ever forget  
we'll make it by I can't take another second of this goddamn town  
it's getting harder to sing...
