# Never Ending

## Onesidezero

It feels like a lonely day, it seems like a throw away
And every thing's a sad reminder of the way we could be together
It feels like a lonely day never ending, a never-ending day
A never-ending dayThere will be, a next time in my heart, in my mind
I see me, beneath you before the truth can seep through
This is so contagious and every day it changes
There will be, a next timeShape turns a false display hoped for a holiday
A sequel to the memory of her on the day we laid together
It feels like a lonely day never ending, a never-ending day
A never-ending dayThere will be, a next time in my heart, in my mind
I see me, beneath you before the truth can seep through
This is so contagious and every day it changes
There will be, a next time
