Hope

We Came As Romans

YeahSometimes I feel so wrong
Like I'm being held down
I feel my heart like a rock, it's sinking
These days can get so dark
Like an eclipse in the sky
But I can rise above
I can find my wayI can run
I can change all the answers
Or what I'll hope they'd beI won't stop
I won't let my own questions
Fade away in my dreamsDon't fade away
We won't fall to our knees
We are the one true hope
So give me an answer
Are you in or you out
We are the one true hope
So give me an answerWe all fall, crawl
Out of the fear you're in
Don't give up
We won't fall to our knees
We are the one true hope
So give me an answer
Woah Woah
So give me an answer, now
Woah Woah
Give me an answerStand up
You have a voice to be heard
You're worth more than words
So let your fire burn
Oh, your flame will be lit
Again when a candle is burned at both ends
And there's nothing leftYou can change
You can become selfless
You're not set in stoneYou will wade through mistakes that we all make
But just hold onDon't fade away (Hold on)
We won't fall to our knees
We are the one true hope
So give me an answer
Are you in or you out

We are the one true hope
So give me an answerWe all fall, crawl
Out of the fear you're in
Don't give up
We won't fall to our knees
We are the one true hope
So give me an answerWe are the one true hope (Woah)
So are you with me (Woah)
Or will you fall to your knees (Woah)We are the one true hope (Woah)
So are you with me (Woah)
Or will you fall to your knees (Woah)We are the one true hope
We are the one true hopeWe won't fall to our knees
We are the one true hope
So give me an answer
Are you in or you out
We are the one true hope
So give me an answerWe all fall, crawl
Out of the fear you're in
Don't give up
We won't fall to our knees
We are the one true hope
So give me an answer
Woah Woah
Give me an answer, now
Woah Woah
Give me an answer
