Clap Your Hands

3rd Storee

Now what you in the party for if you can't get down on the floor?
So what she ain't checking for ya, don't let that one girl destroy ya
For every dime that's on the floor, there's about a hundred more
Steady coming through the door, so what are you waiting forYou and yo boys came to mack 'cuz y'all know where the parties at
So hot you might suffocate but y'all not tryin' to leave this place
Got on ya tightest gear competition's pretty fierce
Grab that girl, don't let her go no matter if the song is fast or slowThat's right fellas, y'all came here to dance
Get off the wall let me see you wave yo hands
That's right ladies, y'all came here to groove
Grab a fella that you like now everybody moveYou might have to call the cops
Let me see you dance, dance
Let me see those hands, hands
'Cuz the party never stops
1 2 3 comin'Clap your hands just a little bit louder
Stomp your feet if you came to party
We are in here and there ain't no trouble
We just want y'all to move ya bodiesClap your hands just a little bit louder
Stomp your feet if you came to party
We are in here and there ain't no trouble
We just want y'all to move ya bodiesParty's been goin' for hours now
You just got out the shower now
Get dressed unwrap ya hair
Tell your girls you'll meet 'em there
Jump in your ride doing 65
You in the mood to get crunked up tonightThat's right fellas, y'all came here to dance
Get off the wall let me see you wave yo hands
That's right ladies, y'all came here to groove
Grab a fella that you like now everybody moveClap your hands just a little bit louder
Stomp your feet if you came to party
We are in here and there ain't no trouble
We just want y'all to move ya bodiesClap your hands just a little bit louder
Stomp your feet if you came to party
We are in here and there ain't no trouble
We just want y'all to move ya bodiesFront back, side to side
Up down, left to right
Front back, side to side
Up down, left to rightClap your hands just a little bit louder
Stomp your feet if you came to party

We are in here and there ain't no trouble
We just want y'all to move ya bodiesClap your hands just a little bit louder
Stomp your feet if you came to party
We are in here and there ain't no trouble
We just want y'all to move ya bodiesClap your hands just a little bit louder
Stomp your feet if you came to party
We are in here and there ain't no trouble
We just want y'all to move ya bodiesClap your hands just a little bit louder
Stomp your feet if you came to party
We are in here and there ain't no trouble
We just want y'all to move ya bodies
