Let It Go

[Venture](#)

LET IT GOGive me a reason I dont have much time to waste
No one feels your pain
The pieces are falling while I try to stay in place
So you all know my name
You wanted it back cause you cant find another
Your under attack cause you cant find another
So I let it go
Dont worry about the last time
Let it Go
Just know that its all right
To just let it go(chorus)
You can take away my love
But youll never take tomorrow
Now youll find what burns inside
You cant ever take from meYou can take away my love
But youll never take tomorrow
Now youll find what burns inside
You cant ever take from meEveryones watching you waste your life away
No one feels your pain
It wont make a difference
Youll always end up the same
We all know your nameYou wanted it back because you cant find another
Your under attack cause you cant find another
So I let it go
Dont worry about the last time
Well just let it go(chorus)
You can take away my love
But youll never take tomorrow
Now youll find what burns inside
You cant ever take from meYou can take away my love
But youll never take tomorrow
Now youll find what burns inside
You cant ever take from meShut your windows and lock your doors
Hungry demons wanting more
They cant hurt you, but make sure
(repeat)Well just know that its all right
To just let it go(chorus)
You can take away my love
But youll never take tomorrow

Now youll find what burns inside
You cant ever take from meYou can take away my love
But youll never take tomorrow
Now youll find what burns inside
You cant ever take from me
You cant ever take from meCopyright 2008 VENTURE
