Change the Copper Into Gold

Seals & Crofts

Change the copper into gold
Make me what I am not now
There is a secret, I should know
I'd find it but I don't know howWell I got so much inside
I give it till there's nothing left
And the evil one must die
So I can see it through your eyesI long to see the snow white falcon as it takes its flight
Far beyond the mountains of love
Watch the smiths in the village of a thousand dreams untold
Change the copper into goldChange the copper into gold
Abide forever here inside of me
Teach me all that I should know
Release the powers of alchemyFire and water cannot dwell
Eternally within this mortal shell
I see the falcon far away
It's calling me to come and fly awayI long to cross the valley of ether, hear the songs they sing
See the master's work unfold
Watch the smiths in the village of a thousand dreams untold
Change the copper into gold
