

Cadillac

Raheem DeV Vaughn

Mama, I need a ride, yeah
Somewhere like that
Would you mind?
Would you mind? Sing I was on i 95 on my way to Mickey D's
When my back right tire went flat
That's when a sexy little thing with a pearl, tongue ring
Jumped out of a black Cadillac Now she had a hourglass figure, no sign of a man
And all she said when she offered a ride was
Hey baby listen, you can ride with one condition
Act right when you get inside She said if you want to ride in my Cadillac
You gotta know how to act, when to jump in the back
You gotta touch me like you wanna be touched
Like it ain't too much for you She said if you want to ride in my Cadillac
You gotta know how to act, when to jump in the back
You gotta touch me like you wanna be touched
Like it ain't too much for you, babe Now when I jumped in that's when she begin
rubbin' and touchin' on me
Then she stopped the car, told me to drive
'Cause she had a little trick from me to see So I followed her directions turned where she said
Not worryin' 'bout where Im supposed to be
And as I got closer, all I heard was the words
In my head that she said to me, see She said, if you want to ride in my Cadillac
You gotta know how to act, when to jump in the back
You gotta touch me like you wanna be touched
Like it ain't too much for you She said if you want to ride in my Cadillac
You gotta know how to act, when to jump in the back
You gotta touch me like you wanna be touched
Like it ain't too much for you She said if you want to ride in my Cadillac
You gotta know how to act, when to jump in the back
You gotta touch me like you wanna be touched
Like it ain't too much for you She said if you want to ride in my Cadillac
You gotta know how to act, when to jump in the back
You gotta touch me like you wanna be touched
Like it ain't too much for you, baby Im from the red light district
Have you been there before?
Come on lets go ill take you
And leave you spoke for She said if you want to ride in my Cadillac
You gotta know how to act, when to jump in the back
You gotta touch me like you wanna be touched

Like it ain't too much for youShe said if you want to ride in my Cadillac
You gotta know how to act, when to jump in the back
You gotta touch me like you wanna be touched
Like it ain't too much for youShe said if you want to ride in my Cadillac
You gotta know how to act, when to jump in the back
You gotta touch me like you wanna be touched
Like it ain't too much for youShe said if you want to ride in my Cadillac
You gotta know how to act, when to jump in the back
You gotta touch me like you wanna be touched
Like it ain't too much for youShe said if you want to ride in my Cadillac
You gotta know how to act, when to jump in the back
You gotta touch me like you wanna be touched
Like it ain't too much for you
