True

What the man says is true
All he's been telling you
Paper trails align at evening time We flew
In from the Cote D'Azur
Wearing our shades and sure
We were good to go in our Peugeot We die
Each day and every night
Follow the swallows' flight
And we drank champagne like it was rain We tried
Tried to outlast the day
Let that lone drummer play
Hell, I ain't afraid of the choice I made It's true
All of this is true
All I've been telling you
From this rhyme it's the killing time, it's true It's true, it's true, it's true...
True, true, true... Helped by navigation so we went to the map
Half the way to China and we never came back Helped by navigation so we went to the map
Half the way to China and we never came back That night
Under the vineyard sky
We kissed and the world cried
As we hit descend and reached the end So young
Deep in our hearts we knew
All I've been telling you is true It's true
All of this is true
All I've been telling you
From this rhyme it's the killing time, it's true
All of this is true!
