

# Alone On Christmas Day

Phoenix

When you find for some sad reason  
you're alone this Christmas season  
And the joys of home grow dimmer  
just like a memory's distant glimmer  
When your love and you are parted  
and all Christmas cheer departed  
It's sad I say, when you're away,  
from love on Christmas Day Why the sadness (gotta move on)  
When there should be gladness (keep moving on)  
All you can do is keep moving on  
Time is mending (you gotta move on)  
Pain soon has its ending (keep moving on)  
Know in your heart it soon will be gone Whether cruising the lonely highway  
or jetting miles high through some skyway  
When you've reached your destination  
awaiting baggage at the station When you see some happy greeters  
it can make your bitter sweeter  
But still for real, it's sad to feel  
alone on Christmas Day  
Why the sadness (gotta move on)  
When there should be gladness (keep moving on)  
All you can do is keep moving on  
Time is mending (you've got to move on)  
Pain soon has its ending (keep moving on)  
Know in your heart it soon will be gone
