

# He Knows You Know (Manchester Square Demo)

## Marillion

He knows, you know  
He knows, you know  
Yea  
Problems, problems  
Problems, problems Light switch, yellow fever, crawling up your bathroom wall  
Singing psychedelic praises to the depths of a China bowl  
You've got venom in your stomach, you've got poison in your head  
You should have listened to the Priest at the confession  
When he offered you the sacred bread He knows, you know  
He knows, you know  
He knows, you know  
But he's got problems Fast feed, crystal fever, swarming through a fractured mind  
Chilling needles freeze emotion, the blind shall lead the blind  
You've got venom in your stomach, you've got poison in your head  
When your conscience whispered the vein lines stiffened  
You were walking with the dead He knows, you know  
He knows, you know  
He knows, you know  
He's got experience  
He's got experience  
He knows, you know  
But he's got problems  
Problems, problems, problems  
Problems, problems He knows  
Slash wrist, scarlet fever, crawled under your bathroom door  
Pumping arteries ooze the problem through the gap that the razor tore  
You've got venom in your stomach, you've got poison in your head  
You should have listened to your analyst questions  
When you lay on his leather bed He knows, you know  
He knows, you know  
He knows, you know  
But he's got problems Blank eyes, purple fever, streaming through the frosted pane  
You learned your lesson far too late from the links in a chemist chain  
You've got venom in your stomach, you've got poison in your head  
You should have stayed at home and talked with father  
Listen to the lies he fed He knows, you know  
He knows, you know  
He knows, you know  
But he's got problems He knows, you know

He knows, you know  
He knows, you know  
He's got experience  
He's got experienceHe knows, you know  
He knows, you know  
You know, you know  
You know, you know  
Problems, problems, problems  
Don't give me your problems
