

Lighthouse

LIVE

The lighthouse lost it's light
On her a long time ago
She got so used to it
This long and winding road I'll never ever let you go I can't believe
She whispered to me
I don't wanna breathe
Oh no This ship of fools sails west
By night time and by day
Circumnavigates her globe
Like a bullet gone astray Come on home baby, where it's safe I can't believe
She whispered to me
I don't wanna breathe
I don't wanna breathe Even if you drink
From the chalice of cheap escape
And fade away
I'll never ever let you go I can't believe
She whispered to me
I don't wanna breathe
I don't wanna breathe She whispered to me
Now I can't believe
She whispered to me
Oh no no no
