

Where'd You Go?

Graham Coxon

Where'd you go, dark eyed traveler?
I almost feel you breathe
Where'd you go, dark eyed traveler?
Can you even hear me speak? You made things bright
When they took the light away
Led me inside and kissed all my tears away
Said you were here to stay Where'd you go in the morning?
When I was weighted down with dreams
Where'd you go in the morning?
When fever pulled me down stream You made things bright
Then you took the light away
Lent me your eyes and showed me a brand new way
Now I just feel dead today
