Holy Dogs

Stir

I wanna see another summer
Not a year long rain
I'll leave my door wide open
I want the freaks to be happy againWhen the dogs come with their mouths wide open
To take me away
Yeah, the dogs will come with their mouths wide open
To take me awayGoodbye for a lifetime
Don't wanna say goodbye for a whileI wanna swim in the water
Watch all the faces swim by
I wanna be the solution
But everyone is just the same as IWhen the dogs come with their mouths wide open
To take me away
Yeah, the dogs will come with their mouths wide open
To take me awayGoodbye for a lifetime
Never wanna say goodbye for a while
Goodbye for a lifetime
Don't wanna say goodbye for a whileI cross the finish line, it's over
And take a ride on my machine
And everyone is free to follow me
But my direction will never be seenWhen the dogs come with their mouths wide open
To take me away
I know those dogs will come with their mouths wide open
To take me awayGoodbye for a lifetime
But don't wanna say goodbye for a while
I'll say goodbye for a lifetime
I don't wanna say goodbye for a whileNever wanna say goodbye
(And then I'll sail my sinking ship into the sun)
Don't wanna say goodbye
(I'll hear the screams and feel the waves from everyone)Never wanna say goodbye
(In the end when all is done I'll start anew)
Don't wanna say goodbye
(Maybe I'll come back for you)
