

Baby, Bye Bye

[Dickey Lee](#)

Bye bye baby bye bye I won't try to even say why
No use to sit and just cry this time baby it's baby bye bye I walk the floor and wonder about you every day
Never know what you're gonna do next or what you're gonna say
I don't think your love for me is true
For you couldn't do what you've been puttin' me through
So bye bye baby bye bye...
[steel]
You don't understand anything I've ever said
Cause you act like our love life is something you're at
I can't seem to get inside to you so there's just one thing left for me to do
Bye bye baby bye bye...
Bye bye baby bye bye...
