

# Beautiful (For Alia)

Teena Marie

Today I watched your diamonds sparkling in the sand  
God whispered to me everything's all right  
She's a lot like you, that girl she's special and  
Have you forgotten when you was throwing caution to the wind  
You were young and free, three things from the wise  
Hush now let it be  
If she comes back to you, you will always know  
That you have to make her much more beautiful  
Beautiful, my baby she's so beautiful  
She sees down deep inside of my soul  
She's so beautiful, beautiful  
Beautiful, she's something like the Southern rain  
She gently plays her rhythms on my window pane  
My baby's beautiful, my baby's lovely  
Tonight I held a moonbeam here inside my hands  
My tiny dancer, I don't have all the answers baby but you're  
Your fruit's like paradise, little girl you're special and  
So young and so restless  
Sweet thing makes me breathless like the wind  
You were young and free, three things from the wise  
Hush now let it be  
If she comes back to you, you will always know  
That you have to make her much more beautiful  
Beautiful, my baby she's so beautiful  
She sees down deep inside of my soul  
She's so beautiful, beautiful  
Beautiful, she's something like the Southern rain  
She gently plays her rhythms on my window pane  
My baby's beautiful, my baby's lovely  
If she was a flower then she'd be a perfect rose  
If she was a river then her heart would overflow  
She sees inside my soul  
She takes me high and low  
'Cause she's so beautiful  
You're beautiful, you're beautiful  
Beautiful you're beautiful baby, my baby  
Beautiful, she's something like the Southern rain  
She gently plays her rhythms on my window pane  
My baby's beautiful, my baby's lovely
