

Call Waiting

M-80

I just want to tell you
I'm with and behind you
Do what you have to do
I'll still be thereIt's like two trees
Neighbors for a thousand years
It's like body and soul
You and me
It's meant to be
Can't you seeI just want to tell you
I'm with and behind you
Do what you have to do
I'll still be thereIt's like an island
In the middle of the sea
It's like a soft wind
Caressing my warm skin
You and me mixing together
Together, togetherYou and me and me and you
And you and me and me and you and meI just want to tell you
I'm with and behind you
Do what you have to do
I'll still, still be there
