You were dying
You were dying
You were dying
You were dyingLast night I had a dream
It scared the shit outta me
'Cause you were dying
You were dyingAnd everyone was around
Everyone was around
You were on the ground
And everyone was aroundYou're dying
You're dying
You were dyingYou were dying
You were dying
You're dyingLast night I had a dream
It scared the shit outta me
'Cause you were dying
You were dyingAnd you were all alone
You were all alone
You were by a phone
But you were all aloneLast night I had a dream
It scared the shit outta me
'Cause you were dying
You were dyingAnd all your friends were there
All your friends were there
In your underwear
And all your friends were thereYou're dying
You're dying
You were dyingYou're dying
You were dying
You're dyingYeah, you were dying
Yeah, you were dying
You were dying
You were dyingYeah, you were dying
Yeah, you were dying
You were dying
You were dyingYeah, you were dying
Yeah, you were dying
You were dying
You were dying

You were dying
You were dyingYeah, you were dying
Yeah, you were dying
You were dying
You were, you were dying
You were dyingYeah, you were dying
Yeah, you were dying
You were dying
You were, you were dying
You were dying
You were dyingYeah, you were dying
Yeah, you were dying
You were dying
You were, you were dying
You were dying
