Here's to You

Nate Hosie

Here's to my neighbors
and my friends from high school
Here's to the small town
All-American just like you

Here's to my family
To the place I was born and raised
All living the realtree life
is there any other way
Here it is now

Here's to the fall leaves
And the spring morning mist
Here's to the sunrise
Over the lake my daddy fished

My grandpa told me
To be proud of your last name
Shoot for the stars my son
But don't forget from where you came

Ain't nothing like
My home sweet home
That state of mind
Roll'n those old dirt roads

Corner fields are knee high
By the fourth of July
Oh yeah

The farmers all so happy
ALeo happy for you and I
Here's to that good life
Hey!

Here's to my neighbors
and my friends from high school
Here's to the small town
All-Americans just like you

Here's to my family
To the place I was born and raised
All to living the realtree life
is there any other way
Here it is now

Hey!

Mmmm yeah

Here it is now

All living the realtree life
Cause there is no other way

All living the realtree life
There is no there way
