# The Rain

## God Forbid

The dirt of this world washes away as the sun disappears. Behind the Cloud. A new start. The rebirth. Another Chance. Rain Down. I Don't mind the rain. It Cleanses Me. Hides the tears which cloud my vision. The vision to see. [solo Doc] Past Mistakes remove. You can try again. Inhale the air around you. Don't let time pass by. Rain on down. I don't mind the rain. it cleanses me. Hides the tears witch cloud my vision. The vision to see. Not a care in this world. Not a care in this world. Live in this moment. right here and right now. Nothing is promised. Except the storm [solo Doc, Dallas] And in this moment right here and right now. I can't stop the rain. Release my pain and let me breath again. Prepare for the storm.Rain on down. I don't mind the rain. It cleanses me.Hides mt tear which cloud my vision. The vision to see. Not a care in the world. Not a care in the world. And in this moment right here and right now. I can't stop the rain.
