

When We Dig for Gold In the USA

Amanda Jenssen

Although we have run a thousand miles
going to run a thousand more
(we hear a voice thats callin')
And when our journey reached its end
It always start over once again
(we hear a voice that's callin')
Telling us it's time to start a new
Telling us it's time for us to leave
Aheads of every sky and every sea
For every heart that we have forsaken
To all the ones who hope
Plowing on a road
Do you wanna' join us to the West?
For everyone that crossed the Atlantic
showed us that you can
It may be the end of our dreams
waitin' to be saved
When we dig for gold in the USA
So many have tried but disappeared
But we have proven that we take
(we have been all left to it)
For in every house been called the home
Sits all the people that still know
(we have been all left to it)
Carry our compass through the storm
Petty all the promises been torn
Agony we know shall soon be gone
For every heart that we have forsaken
To all the ones who hope
Plowing on a road
Do you wanna' join us to the west?
For everyone that crossed the Atlantic
showed us that you can
It may be the ends of our dreams
waitin' to be saved
When we dig for gold in the USA
In the USA
For every heart that we have forsaken
To all the ones who hope

Plowing on a road
Do you wanna' join us to the west?
For everyone that crossed the Atlantic
Showed us that you can
It may be the end of our dreams
all waitin' to be saved
When we dig for gold in the USA
