Snot

Snot

We're fittin' to take your town

You know we wear the crown

Just got to mess around

Leave your daughters and your sisters with me

Down

Down for that fattest sound

We're comin' to your town

Breaking some ground

Someone's got to do it

Can you slow down?

Just can't be

Gotta have a fat sound

From S.B.

Motherfucker said

Is your soul found?

Can't you see?

And we're comin' to your town

Break it, smash it, motherfuckin'

Snot

We're fittin' to take your town

You know we wear the crown

Just got to mess around

Leave your daughters and your sisters with me

Down

Down for that fattest sound

We're comin' to your town

Breaking some ground

Someone's got to do it

Can you slow down?

Just can't be

Gotta have a fat sound

From S.B.

Snot  
You always knew this  
Yeah, Snot crew  
We're undisputed  
Yeah, Snot  
Though we rule your world  
Clockin' all them girls  
We're takin' yours and no  
We'll never stop  
Well Snot, I've got to tell you once again  
Don't try and play my crew 'cause you just can't win  
I like to hear the sound when your skull cracks  
If you talk back feel us attack y'all  
We're fixin' to take you down with a fat, funky sound  
Gonna steal your crown, not gonna mess around  
I know you hear my voice 'cause you got no choice  
The volume of my crew still undisputed  
If you don't move  
We're gonna roll right over motherfucker  
Down with this crew  
Yes, every thing's gonna be alright  
I've got to wow the crowd with a sound so loud  
Try and front but you know I'm gonna get down  
I've got the mic that's right what's at stake is  
Afraid you'll hear the truth, you can't take this  
Slow down  
Just can't be  
Gotta have a fat sound  
From S.B.
