

Room With A View

Mexicolas

Gravity defies me
Fireflies behind me
As I am floating
Down to your bed
And from where I'm standing
It's a perfect landing
And bittersweetness goes to my head

Like a shot for the fear
And a shot to the heart
You're firing me back to the start
Life is faster than light
It will leave you behind
In a room with a view of the sky

What's the fascination
With the constellations?
Well do they guide you
Straight to my door?
'Cause from where I'm standing
We're just too demanding
And bittersweetness will cover us all

Like a shot for the fear
And a shot to the heart
You're firing me back to the start
There's an easy way out
Just let go of my hand
And we'll find somewhere safer to land
Life is faster than light
It will leave you behind
In a room with a view of the sky
In a room with a view of the sky

Someone help me I'm in trouble
Someone help me I'm in trouble

Like a shot for the fear
And a shot to the heart
You're firing me back to the start

There's an easy way out
Just let go of my hand
And we'll find somewhere safer to land
Life is faster than light
It will leave you behind
In a room with a view of the sky
In a room with a view of the sky
In a room with a view of the sky

And bittersweetness goes to my head
