Dance All Night

Kids In Glass Houses

Take a seat, I'll tell you how I'm feeling
Take a seat, I'll break that little heart
Make a scene and bite the hand that's feeding
It takes an end to know just where to start

The story goes,
That I never learned to listen right.
But I know that the only pleasure here was mine

So we dance all night
Yeah, we'll be free before the morning light
If we sing, I wanna know, I wanna know, know it all

Take a seat, cause now the blind are leading
Take a seat, cause now we're in the dark
Promises from you not worth believing
If people have their price you're a la carte

The story goes
That you're never gonna treat me right
But I know that the only pleasure here was mine

So we dance all night
Yeah, we'll be free before the morning light
If we sing, I wanna know, I wanna know, know it all

Yeah, we dance all night
Yeah, we'll be free before the morning light
If we sing, I wanna know, I wanna know, know it all

The story goes
That you're never gonna treat me right
But I know that the only pleasure here is mine

Dance all night
Yeah, we'll be free before the morning light
If we sing, I wana know, I wana know, know it all

Take a seat, I'll tell you how I'm feeling
Take a seat, I'll break that little heart

Take a seat, cause now the blind are leading
They take us from the end back to the start
