

Trigger

drumfish

We walked together hand in hand
I like to feed him but heEats apples with an overbite
And its funny to see him eat them
He chewed them with his buck teeth
Just wanted to make sure he didnt get my handBlind, old and hair that used to be white
Sunken back from age and hooves thatCurl under, they never clipped them
He was walking on high heels
And he liked to like your fingers
You just gotta make sure he doesnt get your hand
