# Loveland (Studio Version)

## Milky Chance

Take me to loveland
And no one's gonna find me
Cause I'm leavin' this old place
Righ o' hereNothing is too far
I handle that
Oh trust me
When we're leavin' this old place
Right o' hereLike she has flowers in her hair
And you have flowers in your mouth
'Cause your heart is upside down
And you get dizzy because of her charisma
She will love yo like a twister
And you'll be swept away
Like we were so in love
