

# When I Change Your Mind

## Cherry Poppin' Daddies

Every thing's gonna be nice and sweet  
When I come sweep you off your feet  
You won't think I'm such a creep  
When I change your mind I was nice and you were cold  
You were bored when I was bold  
I just want my jellies rolled  
When I change your mind You don't want me  
At least not in that way  
You don't want me  
And that drives me crazy Your ignorin' hurts my pride  
Don't you want my pleasure ride  
I've got to have you by my side  
When I change your mind Now, my foolish heart sure don't skip a beat  
When you haul your tired ass across the street  
I'd sell my soul for an airplane seat  
Now, that I changed your mind You don't want me  
At least not in that way  
You don't want me  
And that drives me crazy Cherry poppin' daddy  
Don't you blow your top, yeah
