

# Hulk Hogan

## Skankin' Pickle

When I was 15 years old, I weighed only 96 lbs  
Then my PE teacher told me about anabolic steroidsMy body started to swell, my penis didn't look too well  
After deep thought meditation, I joined the Wrestling FederationWhen I step into the ring, little hulksters  
scream and shout  
Although I'm feeling really, I can't keep my hair from falling outMacho grabs me by the hair, throws me up  
into the air  
There goes another 60 strands out into the screaming fans
