

# No Other Way To Love You

**Maria McKee**

Wanna talk about your wild horses  
And the strength of a hundred men  
Atilla and all his forces  
Couldn't keep me away from him  
My heart, it knows no limit  
It's pumping like a slave  
My momma and all those women  
Say you're gonna dig me an early grave  
Here I go riskin' my life again  
(here I go riskin' it- here I go riskin' it)  
To live with you it's all or nothing, baby  
I may be riskin' my life again  
(here I go riskin' it)  
But there's no other way to love you , baby  
And the best years of my life  
Was 1525  
Although I admit by now  
I thought, I thought we'd be living high  
My heart, it know no limit  
Drop peddle to the floor  
Fly through a flash of bullets  
Baby, thanks for letting me score  
Here I go riskin' my life again  
(here I go riskin' it- here I go riskin' it)  
To live with you it's all or nothing, baby  
I may be riskin' my life again  
(I may be riskin' it)  
But there's no other way to love you , baby  
I'm a big girl  
I've made my choice  
Crazy little World  
My body, you're voice  
On the day I took up with you  
I went through the looking glass  
The day you say we're through  
That day, that day gonna be my last  
My heart, it know no limit  
Got to much boasts to quit  
I'll always be your woman  
Guess I'll be the one to take...  
Guess I'll be the one to take the hit  
Here I go riskin' my life again  
(here I go riskin' it- I may be riskin' it)  
To live with you it's all or nothing, baby  
I may be riskin' my life again  
(I may be riskin' it - here I go riskin' it)  
I'd like to think I did it for something baby  
I may be riskin' my life again

(I may be riskin' it - I may be riskin' it)

But there's no other way to love you, babyThere's no other way to love you, baby

There's no other way to love you, baby...
