

Tough Times

Professor B and the Army of Love

These times are getting harder open your eyes wide and youâ€™ll see

Tough times are getting harder look all around and youâ€™ll agree

Thereâ€™s disregard for living, thereâ€™s bloodshed everywhere the warmth of human kindness has grown cold, yes
has continue to pollute the earth cause we want so many things, donâ€™t matter what shade you bear the colors
always green

These times are getting harder open your eyes wide and youâ€™ll see

Tough times are getting harder look all around and youâ€™ll agree

Technology has come along and wants to humanize. The simple act of kindness will be gone ..yes it will â€¦..
Thereâ€™s massive scale of suffering confusion everywhere The fight to say whoâ€™s right or wrong and no one seems
to care

These times are getting harder open your eyes wide and youâ€™ll see

Tough times are getting harder Look all around and youâ€™ll agree

Thereâ€™s massive scale of suffering confusion everywhere The warmth of human kindness has gone coldâ€¦. yes it
has

We all must come together and find some compromise Or ultimately destroy ourselves before our very eyes

These times are getting harder open your eyes wide and youâ€™ll see

Tough times keep getting harder. Look all around and youâ€™ll agree ..gotta keep on keeping onâ€¦.
