Upsidedown

Bombshell Rocks

Frustration is breathing down my neck
It's right behind, just like a shadow
Frustration keeps me company
Wherever I walk it seem to followWhen I turn around, see all these people
Waiting for salvation to come
And if you take a look, they're moving like robots
Waiting for directions from someoneTurn, gotta turn it, let's turn
Turn the world upsidedown
Turn, gotta turn it, let's turn
Turn the world upsidedownI'm stuck as I, well, as I stand and watch
The worldwide circus from a distance
And I wanna be out there like in my dreams
But I'm sure gonna need some assistanceWhen I turn around, see all these people
Waiting for salvation to come
And if you take a look, they're moving like robots
Waiting for directions from someoneTurn, gotta turn it, let's turn
Turn the world upsidedown
Turn, gotta turn it, let's turn
Turn the world upsidedownWe're gonna fall
You know, where gonna fall
But let's climb back up againWe're gonna fall
You know, where gonna fall
But let's climb back up againTurn, gotta turn it, let's turn
Turn the world upsidedown
Turn, gotta turn it, let's turn
Turn the world upsidedownTurn, gotta turn it, let's turn
Turn the world upsidedown
Turn, gotta turn it, let's turn
Turn the world upsidedown
