Migraine

The Coral

Migraine, doctor, doctor, won't you help me please?
Migraine, doctor, doctor, I'm down on my knees
Migraine, I feel it run from my toes to my brain
Migraine, tried every potion but it can't be tamedMigraineMigraine, doctor, doctor, tearing my hair out?
Migraine, doctor, doctor, what's it all about?
Migraine, I feel nervous and I'm feeling sick
Migraine, my body's aching and I'm shittin' bricksMigraineMigraine, doctor, doctor, can't you find a cure?
Migraine, doctor, doctor, should I stay indoors?
Migraine, I go to parties and I just freeze
Migraine, think I'm infected with a social diseaseMigraine, think I'm infected with a social disease
Migraine, think I'm infected with a social disease
Migraine, think I'm infected with a social disease
Migraine, think I'm infected with a social diseaseMigraineMigraine
Migraine
