

# Step Inside

## The Hollies

Side, step inside You can knock on my door anytime you're passing by  
You don't need an invitation, step inside  
We'll have tea and crumpets toasted by the fireside  
You don't need an invitation, step inside Step inside my doorway, there's no admission fee at all  
If you're in the neighborhood, you only have to call  
I'll be glad to see you, it just cannot be denied  
It's been a long time since I held you, step inside Don't tell your mother about me  
She'll only get angry knowing you've come back  
What her heart can't see can't hurt her  
So take my hand and step inside, take my hand and step inside Don't tell your mother about me  
You know she'll only get angry knowing you've come back  
What her heart can't see can't hurt her  
So take my hand and step inside, take my hand and step inside If it gets too late, I have a bed that you can use  
You don't need an invitation  
If you feel the inclination, you just call on speculation  
Step inside Side, step inside  
Step inside  
Step inside  
Step inside
