## [saanasesions](#)

Athene  
Shes the woman of war  
She gives us the reasons  
Reasons worth fighting forAthene  
She offers protection  
She taught me how to make  
Make my life's reflectionHow i yearn for her wisdom  
I look in every face  
The grey eyes, the gentle kiss  
I look for the safe placeAthene  
Not perfect but still strong  
Warring with her own love  
Singing a woman's songAthene  
With her hand she could give  
Through the battles of her life  
She's shown me how to liveHow i yearn for her wisdom  
I look in every face  
The grey eyes, the gentle kiss  
I look for the safe place
