

Parade

Dev

(oh ooh) like a damn parade i see the way you look when you look at my way
i see the way you look when you look at my way
walkin down the street and you know what they say
walkin walkin down the street and you know what they say the boys go hi
and the girls go hayyy
its like damn parade
the boys go hi
and the girls go hayyy
every day damn im outta control
and im ridin around on empty
but my glass is full
so none of ya'll better temp me
i already been here before
i already did this
so ill have another driink
give you all a few minutes uh
they try to get the best of me
aint impressin me
get obsessed wit me
but i still love em, cuff em
like you welcome
(oh ooh) like your welcome

(oh ooh) your welcome i see the way you look when you look at my way
i see the way you look when you look at my way
walkin down the street and you know what they say
walkin walkin down the street and you know what they say oo im so cold and i cant help it
when i walk down the street baby its selfish
im in the building and im being so rebellious
the night is young, im finna be on, and everybody jealous
they try to get the best of me
aint impressin me
get obsessed wit me
but i still love em, cuff em
like you welcome
(oh ooh) like your welcome

(oh ooh) your welcome i see the way you look when you look at my way
i see the way you look when you look at my way
walkin down the street and you know what they say
walkin walkin down the street and you know what they say where all my boys at, where are my boys?

where are my girls at? dem makin noise
where all my boys at, where are my boys?
where are my girls at? dem makin noise
hayyy h-h-hayyy
where are my girls at? dem makin noise
(oh ooh) like your welcome
(oh ooh) your welcome i see the way you look when you look at my way
i see the way you look when you look at my way
walkin down the street and you know what they say
walkin walkin down the street and you know what they say
