

# From Now On

## Twelve Miles Out

Everybody comes with baggage  
Places and people before  
You don't know what all you're getting  
When love walks through your door, through your door  
I've had some hills and some valleys  
You've done some traveling too  
You can tell by the dents and the scratches  
Our hearts aren't exactly brand new  
From now on is all that counts  
From now on is all that matters  
That's what living's all about  
From different roads we find each other  
You're the only love I want, from now on  
I'm thankful for the ones before me

I'm grateful that they didn't stay  
We can't do a thing about it  
And it's made us who we are today  
From now on is all that counts  
From now on is all that matters  
That's what living's all about  
From different roads we find each other  
You're the only love I want, from now on  
Oh, from now on is all that counts  
From now on is all that matters  
That's what living's all about  
From different roads we find each other  
You're the only love I want, from now on
