

Blood is Thicker Than Water

Upon This Dawning

You can be sure, I'll always do my best to never let you down

I know you won't let me down
You're the light that will never leave me
You light up my way
I can always count on you

And I swear
I will keep it close
'cause your love's the most precious thing that I've ever had
And I know you will do the same
'cause our friendship's what keeps us alive

I know you won't let me down
You're the light that will never leave me
You light up my way
I can always count on you

Let me say we are more than friends
'cause we are brothers, and brothers are fucking blood
And brothers are a fucking family

I can't see our future
But I'm sure, yeah, that we'll be together

I swear
I will keep it close
'cause your love's the most precious thing that I've ever had
And I know you will do the same
'cause our friendship's what keeps us alive

I know you won't let me down
You're the light that will never leave me
You light up my way
I can always count on you
This is my love that will last forever
